

Podcast Submission Process

Stage 0

Submit your podcast to Audio Drama Rama by email or by completing one of the three podcast submission forms

Stage 1

The trailers and episode 1 of all podcasts will be downloaded and entered into the "To Try" playlist

Stage 2

The playlist will be listened to in Stage 2. Podcasts will be selected based on the listening experience (do I want to hear more?). The sound, editing, and overall quality is not a deciding factor of the first season.

Stage 3

Stage 1 and 2 will be repeated listening to additional episodes to determine if the podcast should be set aside for possible recommendation. Stage 3 may continue to be repeated until midway through the second season (Stage 3 can extend past season 2 if given information regarding later episodes.)

Stage 3a

Podcasts that haven't made it through Stage 3 will be added to our internal directory of podcasts with notes in case they can still be recommended. Podcasts that are needlessly offensive or bad for the soul will be discarded completely and pretended to not exist.

Stage 4

Research into the podcast will be conducted to search for more information about the podcast and the team behind it. Research will also look into anything that might disqualify them from having a written recommendation.

Stage 5

Podcasts that pass through Stage 4 will be re-listened from start to finish, or latest episode in order for the recommendation to be written.

Publish

The recommendation will be scheduled to be published
